

**LAYERING GUIDE**

**Inks:**

- Obsidian
- Sunray
- Snapdragon
- Marigold
- Bamboo
- Parrot
- Olive

**Inks:**

- Obsidian
- Arctic
- Persian Blue
- Sapphire
- Mountain Mist
- Volcano Lake
- Lagoon
- Rubellite

**Designer's Tips:**

In order to create a well-balanced card, make sure either the "LOVE" or "YOU" stamp images are centered properly on your card. Then, stamp the sentiment that would best compliment the word underneath. Choose a background cardstock that won't overpower the stamp itself, preferably a simple design!

Create a color gradient on the dies with 3 complimentary dyes! First, stamp your image. Then, emboss your stamp image with either Antique Gold or Pure White embossing powder. Next, die cut the image. Color the cut outs with a blending brush in circular motions with your dyes to create a natural and seamless gradient. Finally, place the die cut image on a simple cardfront and voila!
