MIDNIGHT INK PAD

A VERY BLACK ARCHIVAL INK

Smooth, even coverage

Waterproof

Stays wet for a few seconds so you can emboss your stamped image

TIPS FOR USING MIDNIGHT

Be aware that the Midnight ink pad **will** stain your stamps. We suggest immediately **cleaning your stamps with Ultra Clean** after stamping to minimize staining. When using CP's foam pads, all you need is a light **love tap** to prevent ink from getting into the negative spaces of your stamps.
