

in cahoots with RILEY and COMPANY

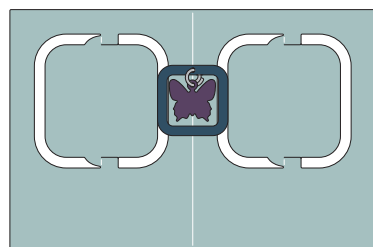

**Charms & Rings:**

Die cut jump rings and charms. Use a jump ring to attach the desired charm inside the Charm Frame as shown. (Note: charms can also be attached using metal jump rings or twine.)

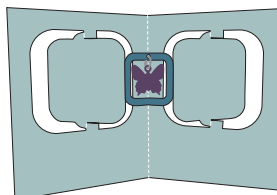

**Add the Charm Frame:**

Adhere the tabs on the Charm Frame under the two pivoting squares on the card.

**Train the folds:**

Fold the center of the card and pivot the squares on their pivot points as shown. The Charm Frame will fold in the center as a valley fold and will tuck behind the squares when the card is closed. The charm will rotate as necessary to tuck into the card when closed.

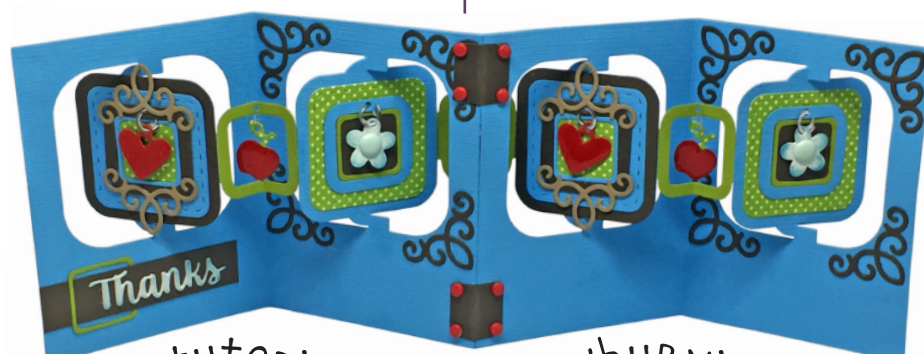

**Sizes:**

The card measures 3.25" x 4.25" when closed (8.3 cm x 10.8 cm) Charms are approximately 0.75" tall (1.9 cm). The pivoting squares measure 2" x 2" (5 cm x 5 cm)

**Expanding:**

To expand into a 4-page Accordion, use the hinge die to join two cards together. Add another Charm Frame between the two sets of pivoting squares.
